When coverage begins

Coverage begins on the date Securion Canada approves your application for coverage.

This is a high-level summary of coverage that will become available under the CAPIC plan. You can find the full and final terms and conditions of this coverage in the certificate of insurance and associated group insurance policy. If there are discrepancies, the terms of the policy will prevail.

Life insurance

Life insurance helps you look after the people who count on you, whether that's your partner, your children or your aging parents.

A life insurance benefit is paid out in a lump-sum payment. It provides an important safety net that can help cover mortgage payments, education, legal fees, funeral costs and more. Life insurance can also be used to provide an inheritance or a final donation to a favourite charity.

About the coverage

Coverage available for:

- You, your spouse¹, your dependant children²

Coverage amounts:

- You and your spouse can apply from \$25,000 to \$250,000 of coverage each, in units of \$25,000
- Child: \$10,000 per child
- Coverage for all of your children costs only \$1.60 per month

Extra advantages

Waiver of premium

With this program, if you're totally disabled³ before age 65, your life insurance continues, but you don't have to pay the premiums. In this case, you'll need to meet all the requirements to show that you're totally disabled.

1. Your spouse by marriage or under any other formal union recognized by law, or a partner of the opposite sex or of the same sex who is living with you and has been living with you in a conjugal relationship for at least 12 months. For Québec residents, there is no minimum cohabitation period for common-law spouses if a child is born out of their relationship.

Only one person at a time can be covered as your spouse.

2. Your child, other than a foster child, who does not have a spouse and who is: under 21, or age 21 or over but under age 25 (age 26 for employees/members residing in Québec) who is a full-time student attending an educational institution recognized under the Income Tax Act (Canada) and is dependant on you for financial support.

A child who becomes disabled before the limiting age and remains continuously disabled, qualifies as long as the child: is incapable of financial self-support because of a disability, depends on you for financial support, and does not have a spouse.

You must provide Securian Canada proof of the above within 6 months of the date the child attains the limiting age.

3. Totally disabled (for life insurance): You will be considered totally disabled while continuously unable, due to an illness, to perform any occupation for any employer, for which you are or may become reasonably qualified for by education, training or experience. However, if you are considered totally disabled under the long-term disability insurance, you are also considered to be totally disabled under the life insurance.

What's excluded?

If you or your spouse have any coverage that has been in effect for less than two years, we will not pay benefits if death is by suicide, regardless of whether you or your spouse have a mental illness or intend or understand the consequences of your actions.

No benefits are payable for a death due to:

- The hostile action of any armed forces, insurrection or participation in a riot or civil commotion
- Injury sustained or illness contracted while in the military services of any country at war, whether such war be declared or undeclared
- Normal pregnancy or childbirth

Accidental death and dismemberment insurance

A serious accident hugely affects your life. You and your family don't need the extra financial worries. Accidental death and dismemberment (AD&D) insurance provides a one-time payment to help your family financially after an accident.

About the coverage

Coverage available for you, your spouse:

- The coverage ranges from \$25,000 to \$250,000, in units of \$25,000
- Your AD&D coverage amount cannot exceed your life coverage amount
- Must have life coverage under the CAPIC insurance program to apply for AD&D coverage

Extra advantages

✓ Coverage for return to home

If you lose your life outside Canada, up to \$2,000 is payable for usual and reasonable expenses incurred in preparing the deceased for burial or cremation and shipment of the body to the place of burial if it is in a country other than where death occurred.

✓ Waiver of premium

If you're totally disabled¹ while covered before age 65, your coverage continues, but you don't have to pay the premiums as long as you remain totally disabled.

¹ Totally disabled

You will be considered totally disabled while continuously unable, due to an illness, to perform any occupation for any employer, for which you are or may become reasonably qualified for by education, training or experience. However, if you are considered totally disabled under the long-term disability insurance, you are also considered to be totally disabled under the life insurance.

How it works

- The benefit payment is a percentage of the AD&D coverage you've selected, based on the loss suffered (see the table of losses for details)
- A lump-sum payment is paid upon approval of the claim, if you or your spouse suffer a serious injury or die due to an accident

Long-term disability insurance

Think of long-term disability (LTD) insurance as a safety net. It'll catch you if an illness or accident keeps you from working. You'll have help paying your regular bills, and maybe some of the extra costs that come with a long-term illness. And that can help your finances stay healthy while you heal.

About the coverage

The coverage ranges from \$500 to \$5000 (\$2,500 for employees of a member of the CAPIC association), in units of \$250. This is based on your net annual earned income per month.

Extra advantages

✓ **Waiver of premium**

If you're totally disabled for a full 90 days before age 65 and are receiving LTD benefits, you don't have to pay LTD premiums as long as you remain totally disabled.

✓ **Partial benefit when you re-start work**

You may qualify for a partial benefit if, right after a period of total disability where you were receiving benefits, you start working part-time and a physician monitors your medical progress. Securian Canada must approve your partial benefit.

The partial benefit is your full monthly benefit, minus 50% of your employment earnings and any other amount payable to you under the Integration of Benefits definition.

✓ **Top up for reduced income when you re-start work**

You may qualify for a partial benefit if, right after a period of total disability where you were receiving benefits, you start working and a physician monitors your medical progress.

Use the table to find your annual income and the corresponding maximum monthly benefit.

Critical illness insurance

Many Canadians may experience a life-threatening illness like a stroke, heart attack or cancer. And some expenses aren't covered by provincial health plans. That could mean dipping into your savings or retirement funds.

Critical illness (CI) insurance provides a lump-sum payment if you're diagnosed with one of three life-threatening conditions - even if you're still able to work. You use it any way you choose, so you can focus on your recovery, not your finances.

About the coverage

The coverage ranges from \$50,000 to \$300,000, in units of \$10,000. Your spouse can apply for the same coverage you choose for yourself.

Conditions covered

Cancer (life-threatening)

Heart attack

Stroke (cerebrovascular accident)

Things to know:

- Coverage is only paid for the first condition you experience
- Diagnosis must be after date of coverage and you must complete a survival period (30 days); Securian Canada must approve your claim
- Additional provisions, exclusions and limitations may apply, including a 12-month pre-existing condition (a medical condition where symptoms appeared or required medical attention, hospitalization or treatment) and 90-day cancer waiting period

Full descriptions of illnesses covered on [page 24](#) in the critical illness appendix.

What's excluded?

Securian Canada will not pay for any illness, disorder or surgery not specifically defined on page 24 in the critical illness appendix.

There are no benefits paid for claims resulting directly or indirectly from any of the following:

- Intentionally self-inflicted injuries or attempted suicide, regardless of whether the person has a mental illness or intends or understands the consequences of their actions
- The hostile action of any armed forces, insurrection or participation in a riot or civil commotion
- Participation in a criminal offence
- Use of illegal or illicit drugs or substances, misuse of drugs or alcohol.

Pre-existing conditions – For any amount of coverage that:

- Did not require proof of good health; and
- Has been in effect for less than 12 months under the employer's critical illness plan,

No benefits are payable for any covered condition that results from any injury, sickness or medical condition (whether or not diagnosed) for which the covered person, during the 12 months prior to the effective date of such amount of coverage:

- Had signs, symptoms, consulted a physician or other health care practitioner; or
- Was provided any health-related care, advice or treatment; or
- Would have consulted a physician or other health care practitioner, acting as a reasonably prudent person with such injury, sickness, medical condition, signs or symptoms.

If coverage ends but the person is covered again under this benefit, Securian Canada will use the latest date the person's coverage began when applying the above limitation.

Extended health care and dental care insurance

Your association's extended health care (EHC) and dental care insurance package gives you options. The cost of prescription drugs, visiting the optometrist or physiotherapist or a stay in the hospital, can add up. Your association's EHC and dental insurance package covers many basic health costs. And, as a member you can take advantage of group insurance rates.

About the coverage

You can choose single or family coverage.

Qualifying for coverage

Quebec residents must also have health and drug coverage through Régie de l'assurance maladie du Québec (RAMQ). Prescription drug claims have to be submitted first to RAMQ. Your association coverage pays the remaining eligible amount. The RAMQ coinsurance and deductible apply.

If you're covered under this and another plan (for example, a spouse's benefits plan), your association coverage pays according to standard coordination of benefits rules.
